**What is your personal life philosophy?**

Unexpectedly, I turned 50 last year, so my personal philosophy has transformed through the years. Nowadays I try very hard to live like a cat and think a lot about where I exert my energy. I recently moved to the countryside, 70 miles south of Barcelona, to an 18th century rectory, and set up quite a smaller studio than I'm used to having in Barcelona. I spend more time in nature and much less time on social gatherings. I try to be more aware of who and what I love and spend much of my time enjoying it or them. And I never stop traveling, inside or outside.

**Who dead or alive, celebrity or not, artist or not, would you like to go on a two week road trip with and why?**

Lauren Bacall please! Just to hear her whispering in my ear.

**How can people learn more about your current and upcoming works?**

They should visit my [website](#) or like my artist page on [FB](#). It is the only way as I am very far from being a successful, mainstream artist. Thank God - this means I can still enjoy myself.
